Memo No. HFW-23099/449/2021/M/ 339

Dated: 23.02.2022

Notice regarding choice filling in WB PG Medical 2021 Round 2

In view of possible conversion of seats from PH to Non PH (in same category if such eligible candidate is not available) and in view of possible upgradation of candidates who are admitted in round 1 and provided willingness for participation in round 2, such choices shall be available for candidates as virtual choices (virtual vacancy) in the choice table for choice filling if they want so.

Such choices shall only be processed for allotment if such conversion actually takes place or if upgradation actually takes place as stated above.

The candidates who get upgraded from the previous college, have to obtain server generated relieving letter from the previous college along with original documents and fees (admission fees shall be forfeited). After that they have to report for physical verification at newly allotted college with requisite fees within schedule time for admission and must obtain server generated admission letter from the newly allotted college.

It may so happen that candidate gets new seat at other course in same college due to upgradation, then also they require to generate relieving letter of previous course followed by server generated admission letter of new course in the allotted college.
